Add note: WARNING Recent bathymetric surveys show the presence of shallower depths compared to what is presently charted. The shallower depths considered the most hazardous to navigation and within or near main shipping channels will be published in Notices to Mariners (WWW.NOTMAR.CA). Mariners are advised to exercise extreme caution, specifically when they navigate outside of the marked navigation channels. AVERTISSEMENT Des levés bathymétriques récents ont révélé la présence de profondeurs moindres que celles portées sur les cartes marines. Les profondeurs moindres les plus dangereuses pour la navigation et dans ou près des principales voies de navigation seront publiées dans les Avis aux navigateurs (WWW.NOTMAR.CA). Nous demandons aux navigateurs d'exercer la plus grande prudence, particulièrement lors de la navigation en dehors des voies de navigation balisées — 43°32′06.3″N 059°13′32.1″W
